SENTRAL

One Platform
For Efficient School Management

Who is Sentral?

Experience Australia's top school management system!

Sentral is a complete school management platform that tackles the diverse challenges of today's educational landscape. By addressing fragmented systems, offering a comprehensive student view, streamlining compliance, enrolment management, attendance, and administrative tasks, Sentral empowers schools with an adaptable and scalable cloud-hosted solution, ensuring growth and sustained success.

With over 25 years' experience, Sentral was created by educators for primary and secondary government, independent and Catholic schools Australia-wide. Visit sentral.com.au to find out why Sentral is Australia's most comprehensive school management platform, trusted by more than 2,500 schools across Australia!

"Sentral allows us to meet the needs of students better than we ever could before."
Kylie Fabri- Deputy Principal at Callaghan College Wallsend Campus

School management made easy
Sentral offers an intuitive web-based interface suitable for any school.

Cloudhosted and Secure
Sentral is available anywhere, anytime and on any device!

Unrivalled integration
Seamlessly integrates with curricula, preferred timetabling, authentication or other existing systems.

Choose what you need
With Sentral's modular design, you can activate the applications that suit your school right now and turn others on later.

Designed by educators
Sentral has been designed by teachers, principals and other school professionals so it works the way you expect it to.

Support when you need it
We understand sometimes issues require a real person on the end of the phone – simply call us, lodge a ticket via the Help Centre for a call-back or book a 15 or 30-minute Advanced Booking for one-to-one training.
