

## Curriculum-aligned Numeracy and Literacy support for every primary learner

### Know where to begin learning cycles

Our whole-school assessment and curriculum model allows you to quickly identify student knowledge gaps in Maths and English before you begin cycles of teaching and learning.

### Grow skills for each of your students

Easily track student progress through engaging formative assessments and ensure a personalised Numeracy and Literacy learning journey for every child.

### Develop continuous learning cycles

Our extensive assessment materials and year-on-year student data ensure a cohesive and complete learning journey for all primary school learners in Australia.

Over 2,800 Australian primary schools trust us to track and measure student growth and achievement. We'd love your school to try **Essential Assessment** and experience the difference we can make.

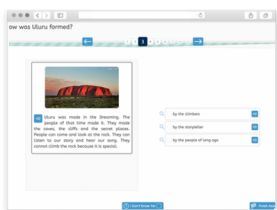

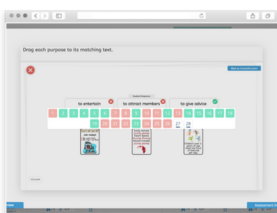

# How our complete assessment model works

## Summative Assessment

*Pre-assessment + Post-assessment*

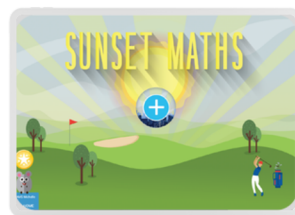

- Numeracy and Literacy summative assessments aligned with the your school's curriculum for rich data insights.
- Monitor growth over time with ongoing assessments and curriculum data.

## Formative Assessment

*My Numeracy + My Literacy*

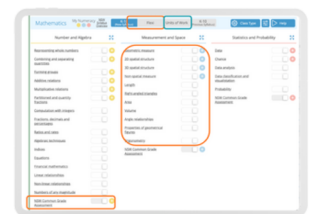

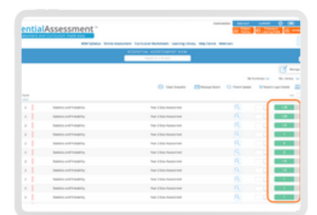

- Easily integrate formative assessment materials and highly engaging learning apps created by Australian educators into your teaching practice.
- Provides a differentiated learning journey for every child.

## Data-informed Insights

*Measuring growth + achievement*

- Access powerful instant student data and insights to inform your teaching.
- Effortlessly measure individual and cohort learning growth.
- Curriculum-aligned data views to track learning growth in your school over time.
