MANAGED IT SOLUTIONS

Streamlining IT operations in schools, Cybersphere's Managed IT Solutions ensure efficient management of computer labs and classroom software. Regular system maintenance and timely software updates are integral, significantly reducing potential disruptions in the learning environment.

CYBERSECURITY ADVISORY & REMEDIATION

Protecting sensitive student data and school records, Cybersphere provides robust cybersecurity measures, including firewalls and staff training. In the event of a security breach, quick response plans are activated to ensure minimal impact on school operations.

IT HARDWARE & BYOD OPTIONS

Cybersphere offers state-of-the-art IT hardware and BYOD options including laptops and smart screens, ensuring top-tier technology and security for schools, staff, and students, safeguarding educational data and enhancing learning experiences.

CLOUD TELEPHONY

Cybersphere's Cloud Telephony provides flexible and cost-efficient communication solutions, perfect for maintaining connections among staff, students, and parents. Scalable services and features like voicemail-to-email facilitate effective communication management, even remotely.

CANON MANAGED PRINT SOLUTIONS

These solutions offer schools cost-effective and eco-friendly printing options. With features like automatic toner replenishment and print management software, schools can effectively control usage, minimise waste, and manage printing budgets more efficiently.

Got questions about your schools IT needs?
