

Use Less and Pay Less

What could Choice Energy save your school?

- ✓ Be rewarded with **lower operating costs** and gain **better control** of your energy bills
- ✓ Ensure you aren't **overpaying for energy** by receiving a **complimentary** assessment
- ✓ **No cost or commitment** to gain an assessment and see if you can save
- ✓ Join more than **11,000 clients** who have benefited from Choice Energy's services

Choice Energy is an award-winning energy firm helping schools reduce their energy costs.

Offering schools peace of mind when it comes to managing your energy spend while also offering genuine choice with a range of energy solutions.

When it comes to cost-cutting, getting a second opinion is always worth it. Choice Energy makes it easy and simple.

Solutions we can explore to help you save:

- Energy assessment and procurement | *Secure low energy rates for electricity and gas*
- Metering and monitoring | *Ensure bills are accurate and challenge them when they're not*
- Quality commercial solar | *Generate your own power and cut your bills and secure funding to make the switch easier*
- Network tariff and demand analysis | *Reduce the largest portion of the bill spend*
- Power Factor Correction | *Lower KVA demand charges & reduce energy waste*
- LED Lighting | *Discover inefficiencies and optimise bill charges*

Get a free energy assessment in three simple steps:

1. Send a **full copy** of your latest **electricity (and gas bills)**
2. **Choice Energy** will review the energy expenditure to identify ways to save
3. You'll gain a **dedicated energy manager** who will continue to check in with the business to see how you can save ongoing expenditure to identify ways to save
